

## Guida all'acquisto di GraphicConverter

guida e-commerce, edizione v1.1, Febbraio 2008

La presente guida è pensata come aiuto per l'acquisto dei prodotti della Lemkesoft.de: GraphicConverter, FontBook, SnapsCleaner, CADIntosh. Come esempio fra tutti, è stato simulato l'acquisto di GraphicConverter su Kagi, ma la guida si applica in egual modo anche agli altri suddetti software.

Per acquistare **GraphicConverter**, collegati al seguente sito:

<<http://www.lemkesoft.com/order.html>>

La pagina che ne risulterà consente di acquistare secondo diversi metodi; approfondiamoli insieme:

The screenshot displays the Lemkesoft website's ordering page. At the top, a navigation bar includes links for ORDER, SUPPORT, DOWNLOAD, PRESS, LEMKESOFT, and CONTACT. Below this, a header section titled 'How to order Lemke software products' provides instructions. A sidebar on the left lists products: GraphicConverter, CADIntosh, FontBook, SnapsCleaner, and Partner solutions. The main content area details various ordering methods, each with a brief description and a link to the respective ordering page. A 'Prices' sidebar on the right lists the costs for different software versions and licenses. At the bottom, a 'mercateo' logo is visible with the text 'Hier kaufen Unternehmen!' and 'Apple' and 'iPad' icons.
